

Dräger X-plore 8000 Face Shield Head Pieces for PAPR and Airline Systems

The Dräger X-plore 8000 face shield provides effective protection for the eyes and entire face. As an integral part of the X-plore 8000 series, it is compatible with X-plore 8000 powered air purifying respirators and the X-plore 9300 airline device.

Dräger X-plore 8000 Face Shield

Highest respiratory protection

Protection class TH3 (in combination with X-plore 8000 system) / 4A/3B (in combination with X-plore 9300)

Wide field of vision

Optimal eye protection and easy handling due to the large lip up visor

Polycarbonate visor

A clear view, also during tough jobs – thanks to strong scratch- and impact-resistant polycarbonate

Lightweight head piece

Comfortable to wear due to a well-balanced and ergonomic design

Neck adjustment ratchet

Quickly and easy to adjust to your individual head size

Protective foils

Protects the visor from dirt and can easily be removed after work

Hygienic

Easy and quick cleaning with Dräger cleaning and disinfection agents, also suitable for machine washing

Benefits

Designed for full compatibility

No matter how tough the conditions, the X-plore 8000 system from Dräger provides you maximum respiratory protection without increased breathing resistance, even during long periods of time. Depending on the system configuration, it can also offer protection for the head, face (including eyes), and hearing.

The system consists of either an X-plore 8300, X-plore 8500 or X-plore 8700 (EX) powered air-purifying respirator for applications dependent on the ambient air or the X-plore 9300 compressed air line system for working with an independent air supply. Both are combined with a headpiece such as an X-plore 8000 face shield, helmet, hood or X-plore mask (X-plore 9300: only for loose fitting headpieces/PAS X-plore and X-plore 9500 for full-face masks). The components can easily be combined for different use cases.

No matter which product combination you choose, you can always rely on your equipment for maximum performance.

Comfortable and lightweight protection

The ergonomic design of the face shield ensures optimum weight distribution on the head. Furthermore, it's particularly light and thus offers you a high level of wearing comfort, even during longer uses.

Easy adjustment and handling

The face shield can be individually adjusted: First, you can adjust the head circumference using the ratchet on the back; second the direction of the breathing air outlet near the forehead can be adjusted to make it even more comfortable. Moreover, you can conveniently flip up the visor.

Before use, the face shield is easily and intuitively connected to the respective breathing apparatus via our standard or flexible hose, which you can also use in combination with our X-plore 8000 hoods and helmets.

Optimal vision

For optimal vision on the job, the face shield is fitted with a large visor which is made of impact-resistant polycarbonate. To make the visor even more robust, it includes an anti-scratch and anti-fog coating. Thus the visor can withstand even the most challenging jobs.

Application areas

The face shield is your reliable solution for various application areas, like construction work, cleaning processes, the automotive industry, hospital applications, transportation, grinding, etc.

Dräger X-plore 8300

Reliable respiratory protection against harmful particles with no noticeable breathing resistance or restriction to movement: The Dräger X-plore 8300 is the smallest and lightest PAPR device in its class, offering maximum protection and comfort. The powered air-purifying respirator integrates seamlessly with the X-plore 8000 product range and can be combined with various X-plore 8000 headpieces, hoses and a wide range of carrying options and accessories.

D-3457-2023

Dräger X-plore 8500

Challenging working environments require a robust and reliable protective solution. The X-plore 8500 powered air-purifying respirator delivers uncompromising respiratory protection against particles, gases and/or vapours combined while ensuring high wearing comfort with no breathing resistance. Benefit from versatile combination options with the X-plore 8000 filter portfolio, a wide range of headpieces, carrying systems and other system components.

System Components

D-3469-2023

Dräger X-plore 8700

Potentially explosive work areas place special demands on personal protective equipment, such as respiratory protection. Thanks to its ATEX certification and dedicated safety functions, the X-plore 8700 blower filter system is the ideal companion for working in potentially explosive atmospheres. The system thus offers reliable protection against particles, vapours and gases combined with a high level of wearing comfort, even in Ex zones 1, 2, 21 and 22.

D-10165-2024

Dräger X-plore 9x00 and PAS X-plore

The Dräger X-plore 9x00 series is designed for light-duty industrial applications and provides comfortable and reliable respiratory protection. Thanks to such features as the unique safe-flow reducer and auto-test function, wearers can enjoy more operating convenience, safety and flexibility.

Related Products

D-9105-2023

Dräger X-plore 8000 Helmets

Helmet options in the Dräger X-plore 8000 series provide combined head and respiratory protection with high comfort. Different lengths and materials for the neck seal allow quick and easy adaptation to specific applications. These helmets are compatible with all powered air-purifying respirators in the Dräger X-plore 8000 series and the Dräger X-plore 9300 airline device.

D-15897-2024

Dräger X-plore 8000 Head Pieces with Hood

The Dräger X-plore 8000 helmet/bump cap and hood combination provides reliable protection in heavily polluted or contaminated environments. The combination of head protection and hood is an integral part of our Dräger X-plore 8000 powered air-purifying respirator systems and our Dräger X-plore 9300 compressed air line device.

D-12004-2024

Dräger X-plore 8000 Hoods

The Dräger X-plore 8000 hoods are essential components for the X-plore 8000 powered air-purifying respirators for ambient air applications and are also compatible with the Dräger X-plore 9300 airline device for independent air supply applications. The hoods are available in various lengths and offer light and comfortable protection with the highest safety level for open headpieces.

D-9134-2023_D-9119-2023

Dräger X-plore 8000 Welding Visors

Regardless of whether you are dependent on ambient air or working independently, the welding visors are an integral part of our X-plore 8000 powered air-purifying respirator system and X-plore 9300 compressed air line device.
