

Dräger PSS Rescue Hood Rescue Device

Fire fighters face some of the harshest conditions this world has to offer, and are expected to save others from these environments; the Dräger PSS Rescue Hood is designed to help the professional save lives.

Benefits

Fits all breathing equipment

The PSS rescue hood can be used with any breathing apparatus requiring only a second medium pressure connection.

Noise reduction for easy communication

The hood is fitted on the inside with a foam pad silencer on the hose connector, reducing the air supply's sound level making it easier to communicate with the person being rescued.

Fast and simple to deploy

Simply place the rescue hood over the head of the person being rescued and connect to the breathing apparatus. Tighten the draw string of the hood around the wearers neck to make air-tight. The rescue hood is designed to fit all head sizes and accommodate spectacle wearers without the need to remove their glasses.

Lightweight and compact

The PSS Rescue Hood is compact and lightweight, at only 620g, and is supplied in a pouch which attaches to the belt of the wearers breathing apparatus, making it easily accessible in the event of an emergency.

Extremely low maintenance

The rescue hood requires very little maintenance, reducing the cost of ownership.

System Components

D-1625-2021

Dräger PAS Lite

For use in industrial applications where a simple, robust and easy to use breathing apparatus is required, the Dräger PAS Lite Self-Contained Breathing Apparatus (SCBA) combines reliability with comfort and performance, as well as excellent service life and easy maintenance.

D-7469-2010

Dräger PSS 3000

The Dräger PSS 3000 is a high performing breathing apparatus for firefighters. Combining comfort with exceptional pneumatic performance, it is designed for applications where simplicity and ease of use are key essentials. Lightweight yet robust, and easy to don, this advanced breathing apparatus provides dependable breathing protection.

D-38071-2015

Dräger PSS 4000

The Dräger PSS 4000 is one of the lightest professional self-contained breathing apparatus for firefighters. Combining comfort with exceptional pneumatic performance, this SCBA is designed for applications where simplicity and ease of use are crucial. Lightweight yet robust, and easy to don, the PSS 4000 provides outstanding breathing protection.

D-4266-2010

Dräger PSS 5000

The Dräger PSS 5000 SCBA is a high-performance breathing apparatus for the professional firefighter. Combining advanced ergonomics with a wide range of configurable options, the Dräger PSS 5000 provides the user with the comfort and versatility to meet the demands of first responders whenever breathing protection is required.

System Components

ST-6147-2007-1

Dräger PSS 7000

Developed by professionals for professionals, the Dräger PSS 7000 breathing apparatus is a major milestone in our continuing development of breathing devices for the professional firefighter.

D-35586-2021

Dräger PSS AirBoss

The Dräger PSS AirBoss offers best in class ergonomics and is one of the lightest weight breathing apparatus for firefighting. Lessons learned from firefighters around the world as well as latest innovations in technology have led us to design an even safer and cleaner SCBA system that enables you to breathe more easily and for longer.

ST-1251-2008

Dräger RPS 3500
